

Dishforth VC CE Primary School Our Curriculum Vision and Intent

At Dishforth, our vision is that "we are rooted and grounded in love so that everyone has the roots to grow and the wings to fly". These roots and wings include academic achievement, good health and wellbeing and the development of self-confidence, self-awareness and our core Christian values of compassion, perseverance and friendship.

This vision is fully inclusive of all the children in our school community including those who have additional needs and those who face barriers to their learning and/or wellbeing.

Our curriculum is broad and balanced, aspirational and continually evolving to best serve the needs of all our children. It is based on core strong foundations in communication and language, reading, writing and mathematics. Our aim is that our children leave Dishforth with the skills, knowledge and confidence to thrive in the ever-changing wider world and in later life.

We are a Church of England school and defining what spirituality means to us has been an important part of our vision for our school and the learning within it.

Our curriculum intent therefore matches our view of spirituality and forms a golden thread through our taught curriculum and the enrichment activities that we offer.

We intend our curriculum to provide our children the opportunity to

explore themselves

their relationships with others

with the world

and beyond

in order that they might flourish, achieve their full potential, and develop a life-long passion for learning.
