

Number: Multiplication and Division

MULTIPLICATION & DIVISION FACTS (RECALL)

MULTIPLICATION & DIVISION FACTS (RECALL)					
			Reception		
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			know that double means twice as many build doubles recognise doubles and non-doubles explore the difference between odd and even number structures		
count in multiples of twos, fives and tens make doubles	count in steps of 2, 3, and 5 from 0, and in tens from any number, forward or backward	count from 0 in multiples of 4, 8, 50 and 100	count in multiples of 6, 7, 9, 25 and 1 000	count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000	
	recall and use multiplication and division facts for the 2, 5 and 10 multiplication tables, including recognising odd and even numbers	recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables	recall multiplication and division facts for multiplication tables up to 12×12		

Number: Multiplication and Division

REPRESENT and USE					
	show that multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot		use place value, known and derived facts to multiply and divide mentally, including: multiplying by 0 and 1; dividing by 1; multiplying	multiply and divide numbers mentally drawing upon known facts multiply and divide whole numbers and those involving	perform mental calculations, including with mixed operations and large numbers associate a fraction with division and calculate decimal
			together three numbers recognise and use factor pairs and commutativity in mental calculations	decimals by 10, 100 and 1000	fraction equivalents (e.g. 0.375) for a simple fraction (e.g. $\frac{3}{8}$)

Number: Multiplication and Division

CALCULATION					
			share equally make equal groups understand that some quantities will share equally and some won't	Reception	
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6

Number: Multiplication and Division

make and add equal groups make arrays make equal groups by adding and sharing	calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals (=) signs	write and calculate mathematical statements for multiplication and division using the multiplication tables that they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods	multiply two-digit and three-digit numbers by a one-digit number using formal written layout	multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context	multiply multi-digit numbers up to 4 digits by a two-digit whole number using the formal written method of long multiplication divide numbers up to 4 digits by a two-digit whole number using the formal written method of short division where appropriate for the context divide numbers up to 4 digits by a two-digit whole number using the formal written method of long division, and interpret remainders as whole
--	---	---	--	---	--

Number: Multiplication and Division

					<p>number remainders, fractions, or by rounding, as appropriate for the context use written division methods in cases where the answer has up to two decimal places</p>
--	--	--	--	--	---

Number: Multiplication and Division

PROPERTIES OF NUMBERS: MULTIPLES, FACTORS, PRIMES, SQUARE AND CUBE NUMBERS					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
			recognise and use factor pairs and commutativity in mental calculations	<p>identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</p> <p>know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</p>	<p>identify common factors, common multiples and prime numbers</p> <p>use common factors to simplify fractions; use common multiples to express fractions in the same denomination</p>

Number: Multiplication and Division

				establish whether a number up to 100 is prime and recall prime numbers up to 19 recognise and use square numbers and cube numbers, and the notation for	calculate, estimate and compare volume of cubes and cuboids using standard units, including centimetre cubed (cm^3) and cubic metres (m^3), and extending to
				squared (2) and cubed (3)	other units such as mm^3 and km^3

Number: Multiplication and Division

ORDER OF OPERATIONS					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					use their knowledge of the order of operations to carry out calculations involving the four operations
INVERSE OPERATIONS, ESTIMATING AND CHECKING ANSWERS					
		estimate the answer to a calculation and use inverse operations to check answers	estimate and use inverse operations to check answers to a calculation		use estimation to check answers to calculations and determine, in the context of a problem, levels of accuracy

Number: Multiplication and Division

--	--	--	--	--	--

PROBLEM SOLVING					
Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial	solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts,	solve problems, including missing number problems, involving multiplication and division, including positive integer scaling problems and correspondence	solve problems involving multiplying and adding, including using the distributive law to multiply two-digit numbers by one digit, integer scaling problems and harder	solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes	solve problems involving addition, subtraction, multiplication and division

Number: Multiplication and Division

representations and arrays with the support of the teacher	including problems in contexts	problems in which n objects are connected to m objects	correspondence problems such as n objects are connected to m objects	solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign	use knowledge of the order of operations to carry out calculations involving the four operations
				solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates	solve problems involving similar shapes where the scale factor is known or can be found
